

01 Mission

This mission of the site is to serve as an excellent resume for myself as well as a public place for documenting work.

02 Audience

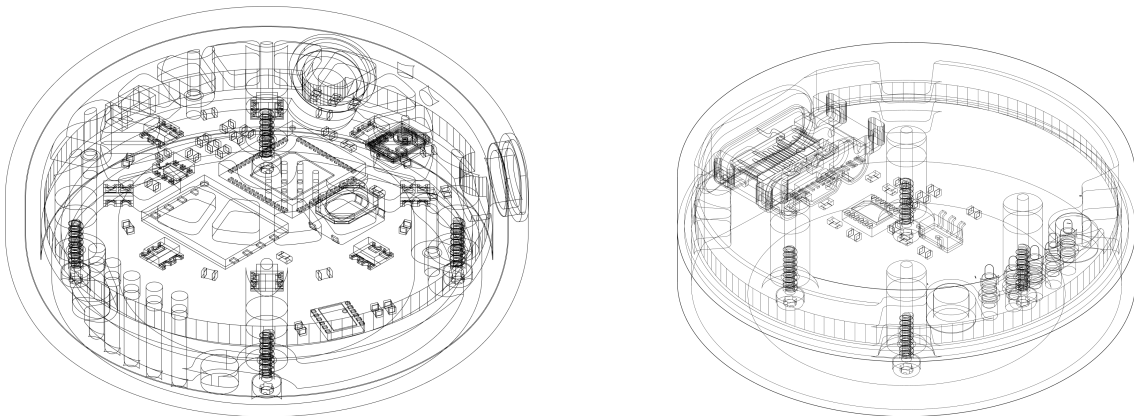

The audience for the site is anyone from hiring managers to those looking to connect.

03 Content

The content should be very similar to that of a resume, with an emphasis on visual elements. A combination of a resume and a portfolio, depicting personal info and experiences as well as specific projects.

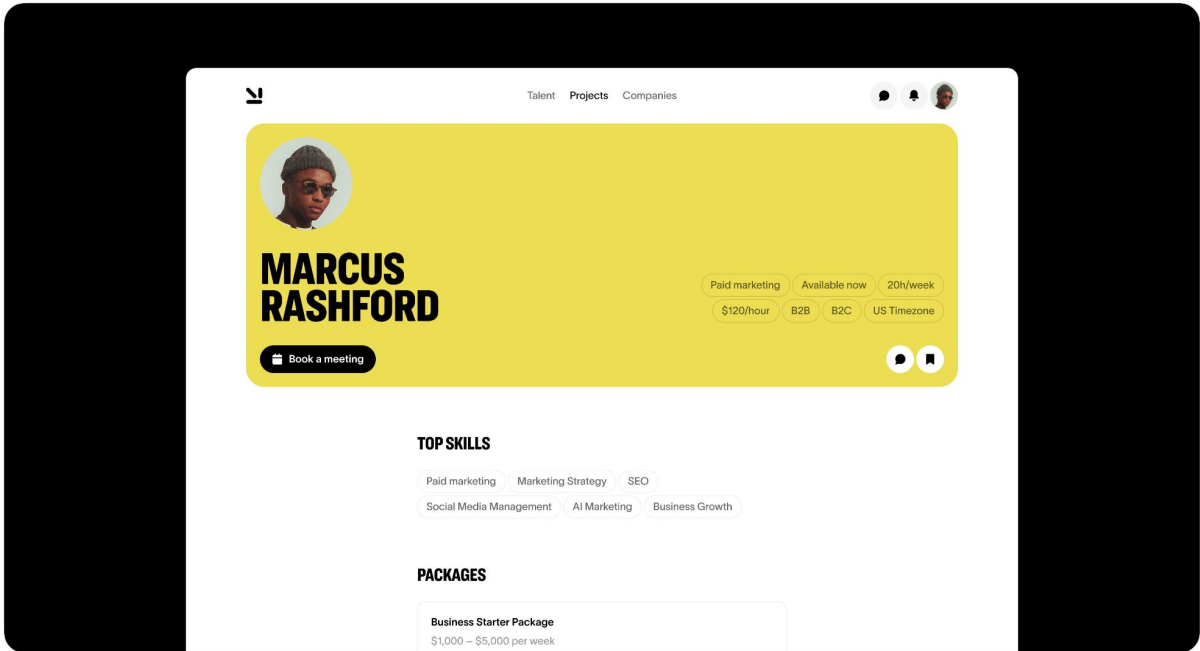

04 Graphics

I have a plethora of interesting graphics to be used for such a page. Here are some examples:

05 Design and Style

I want the design to be simple/minimalistic but unique and ideally iconic. Shouldn't be something 99% of people have seen before. Here's some concepts I like:

About

I'm a physicist, developer, and founder. I currently work as the CEO of Residua, where I am building intuitive, user-friendly, and useful consumer software enabled by LLMs.

Education

Stanford University

2018 - 2023

Bachelor's Degree in Physics (concentration: Mathematics)

- Thermodynamics
- Electromagnetism
- Quantum Mechanics
- Lagrangian Mechanics
- Hamiltonian Mechanics
- Laser Physics & Optics
- Perturbation Theory & Chaos
- ODEs & PDEs
- Multivariable Calculus
- Applied Matrix Theory
- Differential Geometry
- Groups & Symmetry
